## *Office of the President*

Greetings Soka University!

On the occasion of your 50th foundation anniversary, the Capitol University community is one with me in extending our most profound congratulations and best wishes, as you celebrate a very significant milestone in your institution's existence.

In the 25 years of friendship between our schools, we at Capitol University have seen the tremendous impact Soka University has had in furthering humanistic education and peace, not only in Japan, but worldwide. Guided by the vision and principles of your most esteemed founder, Daisaku Ikeda, Soka University is a trailblazer in global education, which has to a certain extent broken down barriers that hinder world progress. Thank you for leading the way.

We are witness to the dedication of Soka University in carrying out and pursuing its mission of molding global citizens who create value in this world. We are a proud partner of your Global Citizenship Program which is a great opportunity to enrich and broaden horizons in the sharing of solutions, experiences and perspectives.

You honor us with your friendship and inspired us with your trust. We shall continue to be your loyal partners in building a world of peace your esteemed founder has envisioned for all of humankind.

Mabuhay, Soka University!

  
Atty. Casimir B. Juarez, Jr.
