

March, 2021

Dear Soka University,

Warmest Greetings from National University of Kaohsiung.

I am President Yueh-Tuan Chen. Congratulations on your 50<sup>th</sup> anniversary!

On behalf of the NUK, I would like to express my deepest appreciation for all the support and contribution from your institution toward our longstanding friendship. We have seen frequent, bilateral student and faculty mobility between our two universities over the past decade, which holds the promise for a broader range of collaborations in the future.

I salute your contribution on leading the globalization in the context of higher education in Japan and initiatives to foster creative global citizens. Since your years of efforts in fostering globally capable individuals are an important part of your institution, we look forward to resuming our student and faculty exchange programs after the epidemic eases.

May we advance with the times, strive for unremitting efforts, and create brilliant new achievements together.

Best Regards,

Yueh-Tuan Chen  
President
