Subject: Soka University 50th Anniversary

Dear partner,

I would like to extend our sincere congratulations for the 50th anniversary of the Soka University.

Our collaboration started in 2019 when our Vice-Dean of the Faculty of Science visited Japan and the Soka University. The signing of an Exchange Agreement followed shortly after that. Even in such a short period of time, we were able to build a strong relationship. Hopefully, we will be able to welcome first Japanese students to Ostrava during the fall 2021 and we look forward to even more exchanges in the future.

This milestone offers a wonderful opportunity to reflect upon the achievements and contributions the Soka University has made to the personal and academic development of its past, present and future students. We wish you lots of success in you hard work and in achieving your goals as a university in the months and years to come.

Kind regards,

Mgr. Renáta Tomášková, Dr.
Vice-Rector for International Relations
