DR. YOSHIHISA BABA
PRESIDENT
SOKA UNIVERSITY
JAPAN

Distinguished Dr. Baba,

On behalf of the community of the University of Guanajuato, I would like to extend our congratulations on the 50th Anniversary of the founding of Soka University.

This important milestone comes at a time of great global significance when collaboration, and friendship among Higher Education Institutions are of utmost importance to promote a dialogue of peace, and exchange of knowledge.

Our University found in Soka University its first partner institution in the Asian continent, and it has favored mutual understanding in the academic, cultural and research fields between Mexico and Japan.

We look forward to the future of our relationship, so that the ties between our universities will be stronger, with the certainty that working together will allow us to build a better society.

I wish you every success in the events of this memorable celebration, as well as a prosperous future for Soka University.

Sincerely,
"The Truth Shall Set You Free"
