3. INTERNATIONAL DORMITORIES

Soka University has dormitories for international students. These facilities focus on creating a proper environment for students to develop cooperation and autonomy skills while living together with students from all parts of Japan and the world. By the time of arrival, it might be difficult to adapt into an environment with diverse cultures, habits and opinions, but it is possible to overcome everything through cooperation and create deep bonds of friendship by the time of dormitory graduation.

Please access the webpage below to find the information on each dormitory. **You must fill in this form even if you are not wishing to enter a dormitory.**

<https://www.soka.ac.jp/en/admissions/enrollment/dormitories>

3.1 On International Dormitories

Please access the URL below and fill in the form. Please note that due to the amount of applications, we may not be able to fit all students in the desired dormitories, thus we would like to ask for your comprehension.

- Students themselves are in charge for the cleaning of the dormitories.

○ On the facilities of each dormitory

- Each dormitory has its own specific time for using the shower room and the bath room.

○ About alcohol and tobacco

In Japan, no one younger than 20 years old is allowed to smoke or drink alcohol. Given that most of the Japanese students living in the dormitories are younger than 20 years old, smoking and drinking in the dormitories is prohibited. In international dormitories, however, drinking and smoking are allowed under the following rules:

- Smoking is only allowed outside the dormitory building in the “smoking area”. (Soshun dormitory does not have a smoking area, therefore smoking is prohibited)
- Alcohol is only allowed in the bedrooms, and only in the following dormitories: Hoyu, Takiyama International and Manyo International.

Immunization for Measles and Rubella

For incoming international students,

In 2007, measles were rampant among high school and college students in Japan. In order to prevent group infection, students are required to gain sufficient immunity before entering college.

You are required to meet at least one of the following conditions before enrollment:

1. In the past, I received vaccination for measles and rubella twice or more each.
2. My antibody tests for measles and rubella were both positive, before the move-in.
3. In 2007 or after, I received vaccination for measles and rubella.
4. In 2007 or after, I was diagnosed with measles and rubella.

Frequently Asked Questions:

Q1. What if I cannot receive vaccination because of allergies?

- Please take antibody tests for measles and rubella.

Q2. If I were to take antibody tests for measles and rubella, what should I do next?

- If the test result is “negative”, “plus and minus”, or “positive and negative”, vaccination is required for each.

Q3. If I were to receive vaccinations at a medical institution (hospital, clinic, etc.), what should I do?

- Ask the medical institution before going whether the vaccinations are available. There are vaccines for “Measles”, “Rubella”, “MR vaccine (Measles and Rubella)”, “MMR vaccine (Measles, Mumps, and Rubella)”. If you take the MR vaccine or MMR vaccine, the vaccination can be done in one session.
- Depending on the medical institution, you may be recommended to take the antibody tests first. In that case, please take the antibody tests, and then please receive necessary vaccinations based on the results. The antibody tests refer to testing of whether you have immunity against the diseases. It can take several weeks or longer to get the results, so please consult the medical institution as soon as possible.
